1789	17-Jun	11-Jun	King	Jane		Mortification. This woman, the mother mentioned above, was found dead in bed, having previously complained very little; her death may be attributed to the effects of the Smallpox, brought on or assisted by grief for her recent loss.	These were the father and three of his children. The mother also and two other children caught the disorder but recovered & the infection spread no further, the family being all removed to Pyrton Hill as soon as it broke out.
